

How to Prepare for Stone Carving Workshop

Carve the soapstone using water...To minimize the mess, please have everyone:

- remove their coats and roll up their sleeves
- remove any bracelets or watches on their wrists
- clear their desks of everything (including name tags)

You will need:

- a water source (does not need to be in classroom)
- bucket for distribution of water and collection of dirty water at the end of the class
- plastic bowls or other containers for water storage- one for each participant
- a small towel or cloth for dust collection- optional but will help keep the stone dust off the desk
- pencil
- small piece of paper (if you are carving Simple Shapes only)

You will receive all the supplies needed:

- pre-cut soapstone shapes
- carving tools
- sandpaper
- take-home bags / polishing cloth
-

General Program Layout:

- set up -15/20 mins.
- program takes 75~90 mins (or longer if you wish)
- cleanup- 15/20 mins.

Specific instructions for set up, carving time and cleanup, will be given additionally.
